

Parking Options for the RRS 10 Miler At Shelby Forest

MRTC RRS 10 Miler ver. 2011 At Shelby Forest, Millington, TN

Measured by Rob Hunter & Lane Purser, June 17, 2011

START—Located in West Grassy Lake Rd approx. 50' south of the drive (to the east) to the swimming pool and approx. 225' north of Shelter #6, the washer is 48' 7" south of a water valve cover in the intersection and 160' 5" north of the first post in the steel guardrail on the east side.

MILE 1—Located in East Grassy Lake Rd, the washer is 5' 7" south of the centerline of the drive leading to the swimming pool (to the west). It is also 5' 7" south of the stop sign post on the east side.

MILE 2—Located on the west side of Grassy Lake Cv, across from the picnic tables, the washer is in line with the 9th parking space from the south and 68' 1" south of the small orange sign on the east side.

MILE 3—Located in West Grassy Lake Rd near the north water line of Poplar Tree Lake, the washer is 75' 10" north of the first post in the steel guardrail on the west side of the street.

Turnaround—Located on the south portion of the dam to Poplar Tree Lake, the washer is in the center of the asphalt drive and 109' 8" east of a line projected from the top of the rip-rap on the lake side of the west portion of the dam.

MILE 4—Located on the east side of West Grassy Lake Rd, the washer is 74' 2" north of a telephone junction pedestal on the east side in the grass.

MILE 5—Located on the west side of Reddick north of Grassy Lake Rd, the washer is directly above an 18" steel drainpipe and 78' 8" northwest of a sign "Caution Steep Grade".

MILE 6—Located on the east side of Reddick Rd, the washer is 90' 4" south of a wood barrier post on the west side and 92' 11" south of a wood barrier post on the east side.

MILE 7—Located near Piersol Lake and Picnic Shelters #1 & #2, the washer is 66' southwest of a round steel pay station cylinder and 60' 8" southwest of a steel signpost "Do not Enter".

MILE 8—Located on the bike path in the 'hairpin' turn where the hiking trail crosses the bike path, the washer is 124' 10" southeast of the northeast corner of the Woodland Trails Shelter and 122' 3" southeast of the southeast corner of that shelter.

MILE 9—Located on the bike path between the gravel road and the switchbacks, the washer is 14' 4" north of the east end of an 18" steel corrugated drain pipe and 16' 2" north of the west end of that pipe.

FINISH—Located in the asphalt parking area east of Picnic Shelter #6, the finish is 18' 10" north of the steel handrail by the sidewalk and 39' 10" north of the next sidewalk to the south.

Course Description

The runners start northbound in West Grassy Lake Rd and run, unrestricted for the entire route (opposing traffic on the 1-way streets). The runners follow the road as it bends right (east) to East Grassy Lake Rd where they turn right (south) and pass Mile 1 to East Grassy Lake Cv where they turn left (east & south) and follow a clockwise path around the landscaped median in the cul de sac and return passing Mile 2 and turning left (south) again on East Grassy Lake Rd and follow the road as it bends west to West Grassy Lake Rd. Here they turn left (south) and pass Mile 3 to the turnaround on the dam and return northbound on west Grassy Lake Rd passing Mile 4 and the Start line. The runners continue as the road bends to the east to Reddick Rd where they turn left (north) and proceed unrestricted past Miles 5 & 6. At the Piersol Lake area they turn left (west) and pass Mile 7 as they turn south at the parking area near Shelters #1 & #2 and enter the bike path passing Miles 8 and 9. The runners continue up the switchbacks to North Grassy Lake Rd where they turn right (west) and follow the road as it bends south to bear left just past the pool to the finish near Shelter #6.
